

## Celebrating Our People - Mohamed Benomar

Mohamed Benomar is business leader, Business Development, in our Morocco office. Most recently, he was part of the team that managed to get the green light from the Central Bank of Morocco to switch and settle domestic transactions.

### **What do you most love about working here?**

There are so many things I love about working at MasterCard. The one thing that really stands out is the trust that the company demonstrates in every employee. Working in a remote office (Casablanca) gave me the opportunity to expand our presence to new markets and new customers and I felt empowered by management to do so.

### **What makes you proud of our company?**

The ubiquity of our brand across the globe still astounds me. Everywhere I go, people have heard of MasterCard, and we're constantly becoming bigger and better.

### **What's your favorite product?**

I think nothing is comparable to our network. I am always immensely proud to say to my customers and prospects that we can process a transaction faster than the blink of an eye - it really has an impact!

### **What's one thing you would change at MasterCard? (If you could do anything you want)**

I would like us to work even better as one global team, with everyone playing their key roles and relishing extra responsibilities.

### **What's one thing most people don't know about you?**

I'm love sports! I used to play for a local professional soccer team in Morocco and stopped after my baccalaureate. I then played for the Pepperdine University team in the United States for four years. I took up golf eight years ago and have been playing regularly ever since - I've won 16 trophies so far and counting!
