

More U.S. Retailers Sign Up for MasterPass

MasterCard has announced that several major merchants have committed to enable MasterPass to provide a seamless, safe and secure online shopping experience for their customers.

Accepted in 16 countries (see a list of featured merchants), MasterPass will soon be available on Blue Nile, Broadway.com, Chegg, Fareportal|CheapO Air, Market America|SHOP.COM, Neiman Marcus, Office Depot and Rue La La as well as on the American Red Cross site for donations.

“Customer service is at the heart of every decision we make at Neiman Marcus. MasterPass will allow our customers the ability to complete purchases quickly, both online and via any mobile device they choose,” says John Koryl, president, Neiman Marcus Stores and Online.

MasterPass enables consumers to pay with any enrolled payment card, anywhere online or in app, using any device and eliminates the time-consuming need to enter detailed payment and shipping information with every purchase.

“Consumers like shopping but paying for things online can be challenging,” adds Michael Cyr, group executive, North America Market Development. “MasterPass helps turn every online payment experience into an express checkout lane.”
